

How can we hear the whisper of God's call in our loud modern American culture?

Sometimes this world drowns out God's call, so all people should listen harder. One of the best ways to do this is to take free time to pray. Prayer is talking and listening to God, so it makes sense that praying is one way to listen to what God wants us to do. Prayer is not just reciting words of existing prayers that you know. It is confiding in God, asking him for wisdom and guidance. God can guide us to make the right decisions in life and choose the correct path for us at these times

Another method to understanding God's call is to read the Bible freely. God inspired the human authors of the Bible. This means that reading the Bible is like God speaking to us through others. Bible passages impart God's knowledge and wisdom into your mind. This helps us speak, act, and live the Bible's teachings. This assistance from God helps us to realize exactly what God's plan for us is.

Another way to listen to God's call is to listen at Mass. Priests and deacons have had the sacrament of Holy Orders, and they proclaim the word of God. Homilies are a way for priests to reflect on the Gospel. They share what the Gospel is telling us and what God is telling us. The best advice coming from a human can be from a priest or deacon. In conclusion, surrounding ourselves with prayerful environments and people can reveal what God desires for us.
